### Book Descriptions:

We have made it easy for you to find a PDF Ebooks without any digging. And by having access to our ebooks online or by storing it on your computer, you have convenient answers with bose gs 123 manual . To get started finding bose gs 123 manual , you are right to find our website which has a comprehensive collection of manuals listed.

Our library is the biggest of these that have literally hundreds of thousands of different products represented.

## Book Descriptions:

# bose gs 123 manual

And by having access to our ebooks online or by storing it on your computer, you have convenient answers with Bose 123 Manual. To get started finding Bose 123 Manual, you are right to find our website which has a comprehensive collection of manuals listed. Our library is the biggest of these that have literally hundreds of thousands of different products represented. I get my most wanted eBook Many thanks If there is a survey it only takes 5 minutes, try any survey which works for you. You may need them if you ever contact Bose Service. Notify Bose or your authorized Bose away. For contact information, refer to the address sheet included in the carton. The plug marked RIGHT goes into the speaker placed to the right of your TV. Netherlands Svenska 4. Insert the remaining single plug into the connector labeled SPEAKERS on the back of the Acousti mass module. Netherlands Svenska 4. On the other end of the cable, make sure you can see the arrow on top of the plug. Yellow Note There may be other kinds of video connectors on your TV that offer higher resolution than Composite. To use either SVideo or Component connectors, you need the appropriate cables. A red and white audio cable may a or may not b already be attached to these connectors. c. If there are no AUDIO OUT connectors at all, continue with on page 22. Netherlands Svenska To connect another component In addition to your cable or satellite box, you can connect a second component, like a VCR. For this higher quality audio, you need a digital audio cable that works with your component. Such cables are available at most electronics stores. The example here shows an Optical digital connection only. Netherlands Svenska To use video pass through This calls for another composite cable or two SVideo cables, which are available at most electronics stores. Be sure to match red to red and white to white. Note In addition to this connection, you can make a digital AUDIO OUT connection from the TV to the media center. <http://itps-group.com/uploadfiles/combined-grades-manual.xml>

Be sure to match red to red and white to white. You may need to raise the ends and adjust the position to get clear reception. Netherlands Svenska 3. Press firmly to attach the antenna loop to the provided stand. Small tabs on the antenna ring fit into notches on the stand. 4. Voltage variations and spikes can damage electronic components in any system. Note Surge protectors are available at most electronics stores. In some cases, the same brand of DVD or VCR device codes can work with a changer. Silences or restores the sound. Enters the System main menu. Displays the DVD menu for the current disc on your TV screen. Displays an onscreen program guide for any connected video devices that provide a guide. Pauses or resumes paused play of recorded music or video. Starts or resumes play of recorded music or video. For CD or MP3 Moves to the previous or next track. Starts DVR or VCR recording of the cable, satellite, or TV program that is playing. Enter Selects the next available radio preset. For video play, also turn on the TV. You may need to change the TV Video Input to see the correct video. Scan backward or forward through the disc, press and hold Seek reverse or Seek ahead. Ratings supplied by the MPAA Parental Control MPAA Setting Rating NC17 Mature teenage audiences PG13 Teenage audiences. If the Optical connection is for a different component 1. Some kinds of setup, however, require a change for optimal performance. In most cases, you make a System change just once. Note To match AM and FM levels, which can vary depending on the program or station, adjusting the volume on your audio component may be preferable. A widescreen DVD image will have black bars on top and bottom. Bose link expansion is a Lifestyle Maintains your established changes in the Settings menu. For example, if you want to

change the screen resolution for DVDs, you will find that option in the TV Settings menu. <http://foundrygate.com/userfiles/combined-manual.xml>

Movie EQ Available only if Audio Processing is set to Adjustable in the Audio System menu. To begin Move backward or forward to the point in the DVD where you want the segment to start. To cancel the timer, select Off. Alkaline batteries are recommended. 1. Slide open the battery compartment cover on the back of the remote. 2. Remove both batteries. Be sure to dispose of the batteries according to the regulations in your area. This allows the unit to reset itself after a power surge or power interruption. You may be in an area of weak signal coverage for some stations. For customer service For additional help in solving problems, contact Bose Customer Service. Refer to the address sheet included in the carton. Netherlands. HDCP is a form of Digital Rights Management licensed by Digital Content Protection, LLC, to control digital audio and video content as it travels across Digital Visual Interface DVI or High Definition Multimedia Interface HDMI connections. A32 Video accessory RACC. A32 Audio receiver. It will help you set up and operate your system properly, and enjoy all of its advanced features. Yet its few parts require little effort to set up, so you can enjoy your new system's performance right. Dolby Digital is the most common means of encoding audio for DVDVideo. It is the width of the picture relative to the height. Save all packing materials, which provide the safest way to transport your system. Check to be sure your system includes the parts shown in Figure 1. If any part of the system appears damaged, do not attempt to use it. Notify Bose or your authorized Bose sheet included in the carton. The Acoustimass will connect to a power outlet. For ordering information, refer to "Accessories" on page 46. Figure 8 System placement for ideal coverage CAUTION Be sure to read the section on making the connections before you plug in the system.

Figure 12 Making the left and right speaker connections Note When properly inserted, there will be a small gap between the plug and the speaker panel. Unwind the wires for each antenna to provide the best reception. Note An outdoor antenna may be used in place of the two that are supplied. Note If your TV does not have an audio output jack, see "If your TV does not have audio out put jacks". This cable may be purchased from your Bose dealer or a local electronics retailer. Before you proceed, you must determine if your TV has audio output jacks. Consult your TV owner's guide if you need assistance. When the TV is on, the words "VIDEO 1", "VIDEO 2", or "AUX". For this type of connection, you will need one additional video cable, which can be purchased at your local electronics store. Figure 22 AUX input connections Connecting other playback equipment Other playback components, such as an audio CD changer, can be connected to the AUX inputs on the rear panel of the media center Figure 22. Or, you can press any source button on the remote to select the source and turn the system on at the same time. See "Selecting the correct video input on your TV". To contact Bose for information on how to purchase the remote separately, refer to the address sheet included with the system. Control panel and buttons The media center has eight buttons located on the top control panel. To enter the Settings menu Before you begin, make sure you have selected the correct Video Input setting on your TV. To check the system status Figure 27 A DVD status example Settings DVD You can also press any source button on the remote to turn the system on and select the source at the same time. The 8 levels of parental control correspond with the ratings on DVDs, and are usually equivalent to standard movie ratings provided by the Motion Picture Association of America MPAA.

For more details on changes you can make to the settings, refer to the Sound Adjustments and System Adjustments sections of this guide. For more details on changes you can make to the settings, refer to the Sound Adjustments and System Adjustments sections that follow in this guide Selection CD setting options Sleep Timer. To store a particular station 1. Automatically engages Bose Dolby Digital bitstream indicates that it contains a mono program. A menu of the available settings for the current source will be displayed on your TV screen. 3. Using the Tune 4. DVD Setup

Video Format Video Black Level DVD Setup submenu The DVD Setup submenu lists options for how the DVD player should operate, including Parental Control. This allows the unit to reset itself. After reconnecting the power cord, wait for the message, "BOSE 321" to appear on the media center display. Details of the warranty are provided on the warranty card that came with your system. Used Very Good Return within 14 days, the Buyer is responsible for all the shipping charge. Thank you very much Please try again. Please try again. Please choose a different delivery location. CDs, VHS tapes, and even mono TV programs, that weren't recorded in surround sound Register a free business account Please try your search again later. Half the size of the original 321 systems speakers, Boses patented Gemstone speaker array works in concert with the systems TrueSpace surround processing to deliver a spacious, multichannel presentation from just 2 visible speakers and a hideaway Acoustimass module. Using Bose TrueSpace proprietary digital processing circuitry, the 321 GS.II system improves the sense of spaciousness imparted by stereo recordings and exciting movie effects from Dolby Digital and DTS surround encoded materials. Yet its few parts require little effort to set up, so you can enjoy your new systems performance right away it even comes with a helpful system setup and demo disc.

Progressive scanning, referred to as 480p for the number of horizontal lines that compose the video image, creates a picture using twice the scan lines of a conventional DVD picture, giving you higher resolution and sharper images while eliminating nearly all motion artifacts. Proprietary Videostage 5 decoding circuitry goes beyond conventional digital technology to bring new life to old movies and music. It gives you a surround sound experience from practically any source, including older media such as videotapes, stereo CDs, even mono TV programs. Advanced postprocessing techniques automatically deliver a clear, onscreen audio center image and balanced surround sound, similar to that of a 5.1 encoded DVD. In the Bose Acoustimass module, 2 downward firing drivers give you powerful performance for the lowest audible notes and effects. And proprietary Bose technology ensures that you hear with clarity the proper balance of deep lows from all channels for music and movies. Hide the module almost anywhere, even behind furniture, and all the sound seems to come from the small cube speaker arrays. If you have other Bose hardware already in place a Wave music system, a 321 Series II DVD system, or a Lifestyle system you can hook it up to this 321 GS.II system using an optional 50 foot Bose link B connection cable to extend your entertainment to an additional listening area. You can also expand upon the 321 GS.II system later by integrating it with a Lifestyle system. Note Bose recommends that you maintain at least 3 feet 1 meter of space between the 2 speakers with no more than 3 feet 1 meter between each speaker and the edge of your TV screen. Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. Please try again later. Fabio Arturo Penaranda 4.

0 out of 5 stars Had heard it displayed in Bose store. At home, hooked to my new home theater system, it blew me away!!!! I can't get enough of it. I have a 1400 square foot home, open floor plan and it more than fills the space. Get the dandy floor stands The equipment even though many years old, was in good working condition. A BOSE Home Theater can be controlled with any universal remote if you have the correct programming guide and the correct remote codes for the sound bar. If the codes below do not work with your BOSE Home Theater, please leave a comment below with the model number of your remote control and we will find you the correct remote code. Program your universal remote control to a BOSE Home Theater. Use the following 4 and 5 digit remote codes. BOSE Home Theater 4 Digit Remote Control Codes 1960 3741 0666 1256 1280 1229 BOSE Home Theater 5 Digit Remote Control Codes 01982 31517 30189 31229 11144 31933 31934 31935 20752 These other 5 digit remote codes may work for older BOSE Home Theater Systems 01106 01187 01376 01254 00476 00276 00810 NOTE Bose systems are set to RF commands by default. Go into the menu of the Bose system and change the settings so it can accept infrared remote IR

commands. All remote codes reported working with BOSE Home Theater Bose CineMate GS Series II, Bose 123 audio system, Bose Acoustimass 10 Series IV Home Entertainment Speaker System, Bose SoundTouch, Bose Lifestyle SoundTouch 535 Entertainment System, Bose CineMate Series II Digital Home Theater Speaker System, and more. You can also check the remote programming instructions included in the packaging of your remote or find a YouTube video for your specific model number remote. Once you find the stepbystep instructions to program the remote to work with your BOSE, use the remote codes included on this page.
