Please upgrade your browser to improve your experience. Replace the old batteries with six new AAA batteries. Make sure you replace them properly using this Battery Replacement Guide. Ensure that the terminals have not become compressed. If possible, pull the terminals away so that the batteries on the upper level are held firmly. I did this and with new batteries, the unit powered on. Replace adapter with a new one. Replace tape cartridge using Cassette Replacement Guide. If there is no tape cassette, insert a new one, see our Cassette Replacement Guide. Make sure tape compartment cover is closed properly. If the cutter seems stiff while not printing it is probably jammed. See our guide for replacing the cassette properly. If the tape is not correctly fed correctly it will not print properly. Make sure the ends of the tape feed under the tape guides. To clean the tape cutter wipe the blade with a cotton swab and rubbing alcohol. If necessary, see Cutter blade Replacement Guide. See Keyboard Replacement Guide. This thing requires LOTS of power, more than the batteries can supply. If a setting other than NORMAL is selected, the Style indicator at the bottom of the display lights up. The current style setting appears in the display. 3 Press and until the desired style setting is display ed. 4 Press or to apply the selected style setting to the te xt. MIRROR PRINTING This function prints your label so that the te xt can be read from the adhesive side of the tape. If mirrorprinted labels are attached to glass or some other transparent material, they can be read correctly from the opposite side. The current mirror printing setting appears in the display. 3 Press and until the desired mirror printing setting is display ed. 4 Press or to apply the selected mirror printing setting to the text. Note T o quit the f ollowing procedure at any time

without making any changes, press. 1 Press. 2 Press and until MARGIN is displayed, and then press or <http://germanlanguagecircle.com/userfiles/c3480i-manual.xml>

The current tape margin setting appears in the display. 3 Press and until the desired tape margin setting is displayed. 4 Press or to apply the selected tape margin setting to the text. The message "FEED" is displayed while the tape is fed out. To cut off the label, push in the tape cutter lever in the topright corner of the machine. REPEAT PRINTING This function allows you to print up to nine copies of the same label. Note To quit the following procedure at any time without making any changes, press. 1 Press. 2 Press and until REPEAT is displayed, and then press or . The message "19" appears in the display. 3 Press and until the number of labels that you want to print appears on the right side of the display. OR Press the key 19 corresponding to the number of labels that you want to print. 4 Press or or to print the labels. NUMBERING This function can be used to print many copies of the same text while increasing a selected number by 1 after each label is printed, for example, when printing labels containing a serial number for example, 0123, 0124, and 0125. Note To quit the following procedure at any time without making any changes, press. 1 Position the cursor below the number that you wish to increase. 2 Press. 3 Press and until NUMBER is displayed, and then press or . The message "19" appears in the display. 4 Press and until the last number that you want to print appears on the right side of the display. OR Press the key 19 corresponding to the last number that you want to print. Note The last number that will be printed must be larger than the number selected in the text, otherwise the message "ERROR" will appear when you try to print. 5 Press or or to print the labels. MEMORY You can use the memory to store your most frequently used text. The text file remains in the memory, even after all characters are removed from the display by holding down and pressing.

Later, the text can easily be reused by recalling it from the memory. The machine's memory can store up to 300 characters, which can be divided into as many as nine text files. The maximum capacity for a single text file is 55 characters. STORING TEXT Note To quit the following procedure at any time without making any changes, press. 1 Press. 2 Press and until MEMORY is displayed, and then press or . 3 Press and until STORE is displayed, and then press or . The message "19" appears in the display. 4 Press and until the file number where you want to store the text is displayed. OR Press the key 19 corresponding to the file number where you want to store the text. 5 Press or to store the text. The text previously shown in the display reappears. Press or , and then delete one of the stored text files before trying to store the current text. RECALLING TEXT Note To quit the following procedure at any time without making any changes, press. 1 Press. 2 Press and until MEMORY is displayed, and then press or . 3 Press and until RECALL is displayed, and then press or . The message "19" appears in the display. 4 Press and until the text file that you want to recall is displayed. OR Press the key 19 corresponding to the file number of the text that you want to recall. 5 Press or to clear the display and recall the selected text. DELETING A TEXT FILE Note To quit the following procedure at any time without making any changes, press. 1 Press. 2 Press and until MEMORY is displayed, and then press or . 3 Press and until DELETE is displayed, and then press or . The message "19" appears in the display. 4 Press and until the text file that you want to delete is displayed. OR Press the key 19 corresponding to the file number of the text that you want to delete. 5 Press or to delete the selected text file. BATTERY The batteries are weak. BATTERY The batteries are empty.

FULL The maximum number of characters 55 characters have already been entered or the memory is full. Problem 1. The display stays blank after you have turned on the machine. 2. The machine does not print, or the printed characters are blurred. 3. The printed characters are not formed properly. 4. Striped tape appears. 5. The memory has cleared on its own. 6. A blank horizontal line appears through the printed label. 7. The machine has "locked up" i.e., nothing happens when a key is pressed, even though the machine is on. Remove the tape cassette and use a dry cotton swab to

gently wipe the print head with an upanddown motion. Finally, release and. Note The te xt and formats in the display and all te xt files stored in the memory are erased.
